

Memorandums of Understanding (MoUs)

S. No.	Partner Institution / Organization	Description
1	IBITF & Kasare Vanya Silk Mills Pvt. Ltd., Raipur (KVSM)	This MoU focuses on collaboration in sericulture, rural entrepreneurship, and sustainable textile innovation. IBITF supports technology adoption, startup mentoring, and skill development, while KVSM provides industry exposure, pilot implementation, and market linkage to promote value-added silk-based enterprises and local livelihoods.
2	IBITF & AIC GNITS Foundation	The partnership aims to strengthen startup incubation, mentoring, and technology commercialization. IBITF and AIC GNITS Foundation collaborate on joint programs, access to incubation facilities, innovation challenges, and investor connect to support early-stage startups, especially in deep-tech, women-led enterprises, and academic spin-offs.
3	IBITF & Mats University, Raipur	This MoU promotes academic-industry collaboration through joint research, innovation projects, internships, and entrepreneurship programs. IBITF supports incubation and startup mentoring, while Mats University contributes academic expertise, student engagement, and infrastructure to foster innovation, skill development, and technology-driven entrepreneurship in the region.
4	IBITF & O.P. Jindal University, Raigarh	The collaboration focuses on research, innovation, skill development, and startup incubation. Both institutions work together on joint projects, faculty-student exchange, entrepreneurship awareness, and industry-linked programs, enabling students and innovators to transform research ideas into scalable technologies and sustainable startups.
5	IBITF & ENTIT Consultancy Services Pvt. Ltd.	This MoU supports the establishment of Centres of Excellence and joint initiatives in e-Governance, IT solutions, and smart technologies. IBITF provides innovation and incubation support, while ENTIT contributes domain expertise, implementation experience, and industry access to develop scalable technology solutions.
6	IBITF & Innovation and Incubation Hub MNNIT Foundation	The partnership enables joint incubation programs, startup exchange, mentoring, and access to shared infrastructure. IBITF and MNNIT Foundation collaborate to strengthen innovation ecosystems, support technology commercialization, and provide startups with broader academic, technical, and investor networks across institutions.
7	IBITF & Foundation for Ecological Security (FES)	This MoU focuses on sustainable development, ecological restoration, and community-based innovation. IBITF supports technology-driven solutions and social enterprises, while FES provides field expertise and implementation support to promote environmental sustainability, livelihoods, and evidence-based policy interventions.
8	IBITF & Amrit Meditech Pvt. Ltd.	The collaboration aims to advance healthcare innovation and medical technologies. IBITF supports R&D, validation, and startup incubation, while Amrit Meditech contributes industry insights, clinical exposure, and commercialization pathways to develop affordable, scalable healthcare and diagnostic solutions.
9	IBITF & TeamLease EdTech Limited (Revenue Agreement)	This revenue-sharing agreement supports skill development, digital learning, and employability initiatives. IBITF collaborates on program design and outreach, while TeamLease EdTech provides technology platforms, content delivery, and industry-aligned courses to enhance workforce readiness and entrepreneurship.
10	IBITF & Vishlesan I-HUB Foundation, IIT Patna	The MoU focuses on AI, data analytics, and emerging technologies. Both institutions collaborate on joint research, startup incubation, capacity building, and knowledge exchange, enabling innovators to access advanced infrastructure, expert mentoring, and national innovation networks.
11	IIT Bhilai & Central Institute of Petrochemicals Engineering & Technology (CIPET)	This academic collaboration promotes joint research, training, and technology development in petrochemicals and polymers. The MoU enables faculty and student exchange, shared infrastructure, and industry-oriented programs to strengthen applied research and skilled manpower development.
12	IIT Bhilai & IIT Roorkee	The MoU strengthens inter-IIT collaboration through joint research, academic exchange, innovation programs, and technology transfer. Both institutions leverage complementary expertise to address national challenges, promote interdisciplinary research, and enhance startup and entrepreneurship ecosystems.
13	IIT Bhilai & Electronics Corporation of India Limited (ECIL)	This collaboration focuses on electronics, strategic technologies, and applied research. IIT Bhilai contributes academic and R&D expertise, while ECIL provides industry perspective and deployment opportunities, enabling technology development, testing, and commercialization for national and industrial applications.
14	IBITF & T-Hub	The partnership connects startups with one of India's largest innovation ecosystems. IBITF startups gain access to mentoring, acceleration programs, corporate connect, and investors through T-Hub, while jointly promoting innovation-driven entrepreneurship and cross-regional collaboration.
15	IBITF & SSIPMT	This MoU supports academic collaboration, innovation programs, internships, and startup mentoring. IBITF provides incubation and industry exposure, while SSIPMT contributes academic resources and student participation to promote entrepreneurship, skill development, and technology-based problem solving.
16	IBITF & Shri Shankaracharya Technical Campus	The collaboration focuses on innovation, skill development, and startup incubation. IBITF supports mentoring and commercialization, while the technical campus facilitates student engagement, joint projects, and research-driven entrepreneurship aligned with industry needs.
17	IBITF & Sapio Analytics Pvt. Ltd.	This MoU promotes data analytics, AI-driven solutions, and applied research. IBITF supports startup incubation and validation, while Sapio Analytics contributes domain expertise, real-world datasets, and implementation support for scalable analytics-driven products.
18	IBITF & Janyu Technologies	The partnership focuses on technology development, pilot projects, and startup support. IBITF provides incubation and mentoring, while Janyu Technologies contributes industry knowledge and deployment opportunities to transform innovative ideas into market-ready solutions.
19	IBITF & Indo Ural Medicines	This MoU supports pharmaceutical and healthcare innovation, including R&D, validation, and commercialization. IBITF enables startup incubation and research support, while Indo Ural Medicines provides industry expertise, manufacturing insights, and regulatory exposure.

20	NDA with ICICI Bank	The Non-Disclosure Agreement facilitates confidential discussions on fintech innovation, financial products, and collaboration opportunities. It enables secure information exchange for evaluating joint pilots, research initiatives, and startup engagement without public disclosure of sensitive data.
21	NDA with Indo Ural Medicines	This NDA allows confidential sharing of technical, commercial, and regulatory information to explore collaboration in pharmaceutical R&D, product development, and commercialization, ensuring intellectual property protection and trust between the parties.
22	IBITF & Department of Panchayat and Rural Development (DPRD), Government of Chhattisgarh	The MoU focuses on technology-enabled rural development, governance solutions, and capacity building. IBITF supports innovation and pilots, while DPRD facilitates field implementation to improve service delivery, livelihoods, and data-driven rural planning.
23	IBITF & RBIH	This collaboration supports fintech innovation, regulatory technology, and financial inclusion. IBITF works with RBIH to mentor startups, conduct pilots, and promote research aligned with responsible innovation and the evolving needs of India's financial ecosystem.
24	IBITF & CCCI	The partnership promotes industry engagement, entrepreneurship, and regional economic development. IBITF supports startups and innovation programs, while CCCI facilitates industry networking, policy dialogue, and business collaboration opportunities.
25	IBITF & BAIA (Bharat Artificial Intelligence Academy LLP)	This MoU focuses on AI education, skill development, and applied research. IBITF supports innovation and incubation, while BAIA provides training programs, curriculum support, and AI capacity building for students, professionals, and startups.
26	IBITF & Rawatpura Sarkar University	The collaboration strengthens academic-industry linkage through research, innovation challenges, internships, and startup mentoring. IBITF provides incubation support, while the university contributes academic expertise and student participation to foster entrepreneurship.
27	IBITF & Gensis	This MoU supports innovation, technology consulting, and startup ecosystem development. IBITF enables incubation and validation, while Gensis contributes strategic, technical, and market expertise to help startups scale and access industry opportunities.
28	IBITF & Campus Angel Network	The partnership focuses on startup funding, mentoring, and investor access. IBITF startups gain exposure to angel investors and advisory support through Campus Angel Network, accelerating early-stage growth and commercialization.
29	IIT Bhilai & Chhattisgarh Biotechnology Promotion Society, Raipur	This collaboration promotes biotechnology research, innovation, and entrepreneurship. Joint activities include research projects, training, and startup support, strengthening the state's biotech ecosystem and translational research capabilities.
30	IBITF & TIOT Systems Pvt. Ltd.	The MoU focuses on IoT-based solutions, smart systems, and applied technology development. IBITF supports incubation and pilots, while TIOT Systems provides technical expertise and deployment support for scalable smart solutions.
31	IBITF & Rungta Institute of Pharmaceutical Sciences, Bhilai, with RSR Rungta College of Engineering and Technology	This collaboration promotes interdisciplinary research, healthcare innovation, and startup incubation. IBITF supports mentoring and commercialization, while the institutes contribute academic expertise, infrastructure, and stud
32	IBITF and D2AI Labs India LLP	This MoU focuses on collaboration in artificial intelligence, data science, and deep-tech innovation. IBITF provides incubation, mentoring, and ecosystem support, while D2AI Labs contributes technical expertise, tools, and industry use cases to develop scalable, AI-driven solutions and startup ventures.
33	IBITF and Rungta International Skill University	The partnership aims to strengthen skill development, entrepreneurship training, and industry-linked education. IBITF supports innovation and startup mentoring, while Rungta International Skill University contributes vocational training, academic infrastructure, and workforce-readiness programs aligned with emerging industry needs.
34	IBITF and Shri Shankaracharya Professional University (SSPU)	This MoU promotes academic innovation, startup incubation, internships, and collaborative research. IBITF provides mentoring, commercialization pathways, and industry exposure, while SSPU facilitates student participation, faculty collaboration, and joint programs to foster entrepreneurship and innovation-driven learning.
35	IBITF and Krishna Engineering College (KEC), Bhilai	The collaboration focuses on student innovation, entrepreneurship development, and industry exposure. IBITF supports incubation, mentoring, and startup guidance, while KEC enables academic collaboration, internships, and innovation activities to encourage technology-based solutions and startup culture among students.
36	IBITF and Shree Sita Ispat and Power Private Limited	This agreement strengthens industry-academia collaboration in manufacturing, energy, and process optimization. IBITF supports innovation, research translation, and startup engagement, while the company provides industrial exposure, pilot opportunities, and commercialization support for practical technology solutions.
37	IBITF and AISECT	The MoU supports skill development, digital education, and entrepreneurship initiatives. IBITF collaborates on innovation programs and startup mentoring, while AISECT provides training infrastructure, outreach capabilities, and implementation support to enhance employability and technology adoption.
38	IBITF and Bhilai Municipal Corporation (BMC)	This partnership focuses on urban innovation, smart governance, and civic technology solutions. IBITF supports startups, pilots, and innovation frameworks, while BMC enables real-world implementation to improve urban services, digital governance, and citizen-centric public solutions.
39	IBITF and Film and Television Institute of India (FTII)	The MoU promotes collaboration in media, creative technologies, and skill development. IBITF supports innovation and startup incubation, while FTII contributes expertise in film, media production, and creative education to foster technology-enabled solutions in the creative industries.
